Report of Librarian and Trustees

From the 2,758 volumes in the Library and the 3,372 volumes brought by the Bookmobile, 3,995 books and magazines were loaned by the library during 1962.

During 1961 the 4,023 circulation gave the Shedd Free Library the second highest per capita circulation of the 228 libraries in New Hampshire, with an average of 24.8 books taken out by each of our 162 population, more than four times the average of 6.0 books per capita for the whole state. Our library ranked seventh with an average expenditure of \$5.06 per person for library purposes compared to the New Hampshire average of \$1.91 per capita. These figures show we support as well as use our library.

The library is only open one day a week, Wednesday, from 2:30 to 4:30 in the afternoon and 7 to 9 in the evening, but be sure to come to browse or take out books if you haven't done so, as it is your library.

Committee Report

The Planning Committee put on two of the four Saturday night dances at the Town Hall, but the attendance at the last one resulted in a small net deficit of \$28.00.

The Planning Committee worked with the Community Service Committee of Lovell Grange who had a project to provide the facilities for showing sound motion pictures. The Planning Committee provided \$45 to go with the \$130 from the Grange to make possible the purchase of an excellent, older model, DeVry 16mm. sound motion picture with built in speaker and all accessories for \$175. This provides a compact unit for use by the school and other organizations for educational and entertainment programs. Earlier Mr. and Mrs. Adolph Meier (Jeannette Hurd) gave the town a large portable projection screen to complete the equipment, and their gift is greatly appreciated. As films become available it is expected programs will be arranged for enjoyment by the entire community.

PREVENTING FOREST FIRES IS OUR RESPONSIBILITY

Costs of suppressing carelessly set outdoor fires in New Hampshire in 1962 cost the persons responsible \$5,545. In the same period, the cost to the cities and town for control of such fires for which no responsibility could be placed cost another \$24,634. What utter waste of tax money and what shameful and needless loss of timber and esthetic values in the 2,200 acres burned. Residences, farms, and other business places were threatened with possible total destruction.

Carelessly set man caused fires can be prevented if every citizen remembers his responsibility in regard to any source of fires in the open. We can help to keep our fire loss low by remembering these simple rules.

1. Dispose of burnable waste at the town dump.
2. If waste or brush is to be burned on the premises, obtain a permit from the forest fire warden. Seasonal permits may be issued for approved incinerators and sites.
3. Burn safely by picking a clean site, avoiding dry windy weather and preferably burning late in the day.
4. Have something to keep the fire under control—pails of water, garden hose, sprinkling can, broom for grass fires or shovel will help.
5. Be sure your fire is dead out before you leave it.
6. If the fire gets out of control or if you see a fire out of control, report promptly to your warden or fire department. Continue to fight it until help arrives.

There is potential danger when matches fall into the hands of children. It is never too early for parents to instill in the child's mind a respect for fire.

Keep our town safe from fire.

In 1962 we had 1 fire, town dump.

We burned 0 acres.

Permits issued, 67.

Some of Washington's citizens attended the hearing conducted by the Interim Commission on Education held May 29, 1962, in Hillsboro. Their first report has been printed and contains some very interesting reading. In the main they confine themselves to discussing the future of secondary education in New Hampshire, but in some instances indicate a need for local school districts to give

serious thought to providing their youngsters with the educational opportunities which may be obtained in a school, "with one grade per teacher per room". They say that out of 217 school districts in the state only 28 have an average daily membership of 1-50. They say that in these schools "one grade per teacher per room is not provided, and the quality of education necessarily suffers" and the cost per pupil is high.

Last year our per pupil cost for our elementary youngsters was \$563.00 per pupil while the cost for the high school youngsters was approximately \$550.00. Comparably speaking, Washington can well afford this high cost for its elementary pupils which is better than two hundred fifty dollars above the state average because this same report indicates that while the average equalized valuation per pupil in New Hampshire is \$24,564; Washington has \$47,749 of equalized valuation behind each pupil. Also while the average equalized school tax rate in New Hampshire is \$1.47; Washington is \$1.22, which indicates that even though Washington has a high per pupil cost, their financial assessment is well below the state average.

Why do I include this information in my report? Well, as a professional educator, I believe you should have all the information available to you when you are asked to make judgements on problems pertaining to the education of your youth.

The forthcoming legislative session could have some very interesting proposals which could affect Washington. I will try to keep you informed and hope that if the need be, there will be citizens in the community who will be willing to attend legislative hearings to protect its interest.

It has been a pleasure to work again this year with the School Board, teachers, pupils, and citizens of Washington and I appreciate their cooperation.

Respectfully submitted,

NORMAN R. HARTFIEL

Superintendent of Schools
